

STANDARD INFORMATION

AMENDMENT 1: See updated Impact statement in blue text below.

If the project requires any changes to the Certification Data Report outside of Section 1, then this SUN applies.

Superseded Standard: UL 563 Ice Makers

Superseding Standard: UL 60335-2-89 / CSA C22.2 No. 60335-2-89 Household and Similar Electrical Appliances - Safety - Part 2-89: Particular Requirements for Commercial Refrigerating Appliances with an Incorporated or Remote Refrigerant Unit or Compressor

EFFECTIVE DATE OF NEW/REVISED REQUIREMENTS

Effective Date: September 29, 2024

IMPACT, OVERVIEW, AND ACTION REQUIRED

Impact Statement:

Commercial Refrigeration Appliances certified to UL 563 are transitioning to UL 60335-2-89 / CSA C22.2 No. 60335-2-89. This change was driven by the need for harmonization rather than driven by safety issued. Due to this, Intertek is implementing a Continuing Certification Process for existing Commercial Ice Makers to UL 563. No action is needed, and the certification will remain active under the previous UL 563 as long as the appliance is not modified.

Household ice makers that are not within the scope of UL 60335-2-89 / CSA C22.2 No. 60335-2-89 will remain certified to UL 563.

After September 29, 2024, any modifications to the product will require evaluation to UL 60335-2-89 / CSA C22.2 No. 60335-2-89.

Current Listings Not Active? – Please immediately identify any current Listing Reports or products that are no longer active and should be removed from our records. We will do this at no charge as long as Intertek is notified in writing prior to the review of your reports.
